search by FLOIR File Log Number
hint: The numbers are formatted ##-#####. The alpha prefix is not to be included. The first two digits represent the year the filing was entered into the system, i.e., 06 = 2006 and 98 = 1998. The last set of five digits is the always preceded by a hyphen.

search by company identifier
hint: The FEIN is more accurate since the company name will need to spelled exactly as it is in the FLOIR database. For the exact spelling or to look up the FEIN, please go to <http://www.fldfs.com/data/CompanySearch/>

select appropriate timeline of when filing might have been received and closed
hint: Adding a few extra days before the estimated date of receipt and after the estimated date of close returns more filing options to review

search by the form number assigned by the submitter
hint: This field should only be used if one is certain of the form number.

search by filing type
hint: Property and Casualty filings are either Forms Only or Rates Only, while Life and Health filings can be Forms Only, Rates Only or Both. It is best to leave this category blank if one is not certain of the filing type.

search by Line of Business
hint: Filings usually contain only one line of business. To find the lines for which a company is authorized, please go to <http://www.fldfs.com/data/CompanySearch/>

Select the filing you wish to review

Filing Status

hint: Filings marked "Pending" will produce the submission as it was received. **No** work papers or correspondence added to the filing between its receipt and formal closure will be included.

Roll/Frame

hint: A return in this field means the filing is older than the system and is available only on microfilm or microfiche. Please contact the [DFS Document Processing Unit at 850-413-3149](#) for further details.
