hereinafter referred to as "the Company." Such report of examination is herewith respectfully submitted.

SCOPE OF EXAMINATION

This examination covered the period of December 31, 2016 through December 31, 2019 and the fieldwork commenced with planning with the Florida Office of Insurance Regulation ("the Office") on May 6, 2020. The fieldwork concluded as of May 24, 2021. The Company's last full scope exam by representatives of the Office covered the period of January 1, 2012 through December 31, 2015.

The examination was a multi-state, coordinated holding company group examination conducted in accordance with the NAIC Financial Condition Examiners Handbook ("the Handbook"). The Handbook requires that the examination be planned and performed to evaluate the financial condition, assess corporate governance, identify current and prospective risks of the Company, and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively. The lead state for this exam was the Indiana Department of Insurance and the participating states were as follows: Arkansas, Florida, Kansas, and New York.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. This may include assessing significant estimates made by management and evaluating management's compliance with the NAIC Statements of Statutory Accounting Principles ("SSAP"). The examination does not attest to the fair presentation of the financial statements included herein. If, during the course of the examination an adjustment is identified, the impact of such adjustment will be documented separately following the Company's financial statements.

This examination report includes information obtained from the examination of the records, accounts, files and documents of or relative to the Company and other information as permitted by Section 624.319 and 641.27(1), Florida Statutes. There may be other items identified during the examination that, due to their nature (for example, subjective conclusions or proprietary information), are not included within the examination report but separately communicated to other regulators and/or the Company.
