Product	Product Definition
Long Term Care Comprehensive - Other	A policy or rider that includes coverage for both institutional nursing home and home health care. If a form provides both facility and non-facility care, it is considered comprehensive. If a base form is facility only and non-facility coverage is offered as a rider, whether the rider is selected or not, the form and rider are comprehensive. One form may not be categorized as two different types of long term care for any rating purposes, nor may it be included in more than one block of business. In addition, if a form provides facility only benefits with no available non-facility rider or option, then it is considered facility only regardless of what other forms were available at the same time.
