# 2015 FLORIDA HEALTH INSURANCE MARKET REPORT

### **BY THE**

FLORIDA HEALTH INSURANCE ADVISORY BOARD

### **Introduction**

The Florida Health Insurance Advisory Board (FHIAB) is charged with advising the Office of Insurance Regulation (Office), the Agency for Health Care Administration (AHCA), the Department of Financial Services (DFS), other executive departments and the Legislature on health insurance issues [see Section 627.6699(11)(o), Florida Statutes (F.S.)]. As a part of this responsibility, the Board issues an annual report on the state of the health insurance market in Florida.

The reports issued by the Board rely upon data collected by the Office under the authority of Section 627.9175, F.S. The 2015 report incorporates insurance company data submitted to the Office for the year ending December 31, 2014. Previous reports are available on the FHIAB section of the Office's website at: <a href="http://www.floir.com/Sections/LandH/FHIAB.aspx">http://www.floir.com/Sections/LandH/FHIAB.aspx</a>.

### **Background**

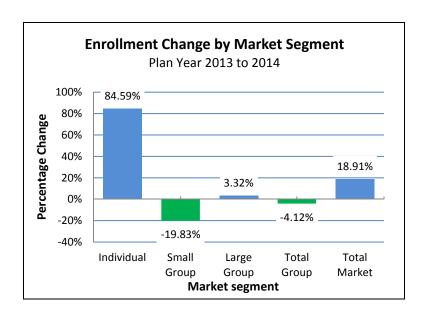

The FHIAB evolved from small group health insurance reform in Florida. Originally established in 1992 as the Florida Small Employer Health Reinsurance Program, it was expanded in 1997 to include the Florida Individual Health Reinsurance Program. Both Programs were governed by the same board of directors and operated as the Florida Health Reinsurance Program. Florida law changes in 2005 directed the Program to advise the Office, AHCA, DFS, other executive departments and the Legislature on health insurance issues. In light of these developments, the Board voted to change its name to the Florida Health Insurance Advisory Board, which better reflected its new responsibilities.

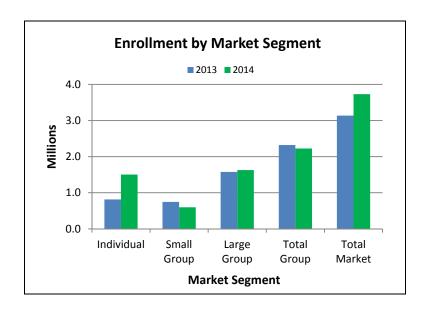

The composition of the board of directors was also changed to decrease the number of insurance company representatives and to add representatives of the business community and other stakeholders. There are 14 members of the Board as prescribed by statute. A listing of the FHIAB directors is attached.

### Florida's Commercial Health Insurance Markets Detailed

The following figures present enrollment and premium summaries in Florida's commercial (non-governmental) major medical health insurance markets as reported and compiled from data filed with the Office by each Accident and/or Health Coverage provider.

### **Commercial Enrollment**

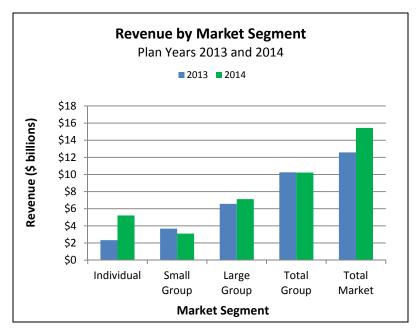

As illustrated above and shown in Table 1 below, total enrollment in Florida's commercial health insurance markets increased in 2014 by 18.91% or 593,325 covered lives. Total covered lives at year end 2014 were as follows:

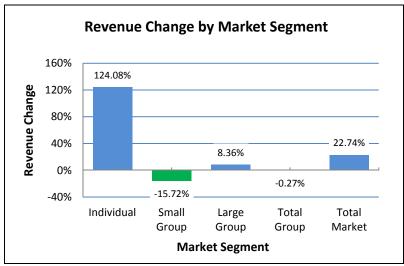

- **Individual Coverage -** 1,503,564, an increase of 689,033 or 84.59%.
- **Small Group -** 598,361, a decrease of 148,047 or 19.83%.
- **Large Group** 1,628,198, an increase of 52,339 lives or 3.32%.

Total Commercial Market	\$12,577,068,069	\$15,437,010,742	

#### **Premium Dollars and Direct Losses**

Comparing premiums collected in various markets with the losses associated with those markets yields the direct incurred loss ratio for that market segment. As expected, each market demonstrates a different loss ratio profile. However, when comparing 2014 to 2013 overall, there was a decrease in the small group market loss ratio, an increase in the individual market loss ratio and a very slight increase in the large group market loss ratio.

Loss ratios increased significantly in the individual market as increased premiums did not offset the rise in medical expenditures.

Large group (51+ members) experienced a loss ratio of 83.09% in 2014. This market segment has a higher volume and lower administrative cost environment; consequently, higher loss ratios are generally expected in this market segment relative to other markets. This loss ratio was nearly unchanged from the 2013 loss ratio of 82.81%. The small group (1-50 members) loss ratio decreased from 78.63% in 2013 to 76.02% in 2014.

### **Conclusions**

The year 2013 marks the last year that most individual health care coverage in Florida was issued requiring evidence of insurability. Beginning in 2014, all new individual health insurance policies were issued on a guaranteed issue basis meaning applicants no longer had to undergo medical underwriting to determine eligibility for coverage. The Affordable Care Act (ACA) also encouraged the purchase of insurance coverage by providing premium and cost sharing subsidies for low-to-moderate income individuals and families, as well as, by instituting tax penalties for those without health insurance. This had a significant impact on Florida's 2014 commercial health insurance market as enrollment increased in 2014 by 593,325 covered lives or 18.91% and premium revenue increased by \$15,437,010,742 or 22.74%.

Because all new individual policies are guaranteed issue, the market for underwritten policies has decreased significantly and should continue to decrease. The individually underwritten policies reported herein for 2014 are either grandfathered policies, which means they were issued before the passage of the ACA and can be renewed indefinitely, or transitional policies, which means they were issued after passage of the ACA but can be renewed through 2016. Guaranteed issuance of individual policies, along with the existence of premium subsidies on the Federal exchange, also contributed to a decrease in the number of conversion and out-of-state policies.

The small group enrollment for 2014 showed a decrease compared to 2013, but this decrease is not necessarily indicative of changes in the small business community. Some decrease was expected as employers eliminated group coverage and provided their employees access to subsidies and cost sharing reductions available through the ACA. In addition, since the ACA requirement of essential health benefits does not apply to self-insured groups, the trend of employers moving to self-insured coverage was expected to continue and possibly increase.

Enrollment and revenue increased for large groups. However, the increases were relatively less significant compared to other market segments as the ACA had less of an impact on this market segment.

#### FLORIDA HEALTH INSURANCE ADVISORY BOARD BOARD OF DIRECTORS

Kevin M. McCarty, Chair Commissioner Office of Insurance Regulation 200 East Gaines Street Tallahassee, FL 32399

W. Adam Clatsoff, Vice Chair President/CEO Adcahb Medical Coverages, Inc. 3000 N.W. 101 Lane Coral Springs, FL 33065 Term Ending: 12/31/2016
