III. Remarks by Chairman

Mr. McCarty stated that the meeting was another in the series of meetings to develop legislative recommendations for presentation to the Office of Insurance Regulation, other executive agencies and the Legislature. The Board has held a series of meetings during the year to hear from a variety of stakeholders including insurance companies, agents and consumers. Mr. McCarty also noted the publication of the 2007 Florida Health Insurance Market Report. He indicated that there were two contrasting items to report. First, he noted the resurgence of Florida’s commercial health insurance markets. Enrollment is increasing in all segments of the market. However, that positive news is offset by the continued growth in number of persons without insurance in Florida. Policymakers would be looking to the Board and other entities for recommendations to address this problem. IV. 2008 Legislative Recommendations

Mr. McCarty asked Mr. Bracher to review the 2008 Legislative Recommendations. Mr. Bracher reviewed each recommendation for the Board to discuss. After review Mr. McCarty asked if there was general agreement on any of the recommendations so they could be approved by consent. The following recommendations were approved by consent.

Consent agenda legislative recommendations:
8. Continue efforts to expand the utilization of electronic medical records.
9. Expand/enhance existing public programs such as Healthy Kids to fully utilize existing public funding.
10. Support funding to update the 2004 Florida Health Insurance Study
11. Request funds for a demonstration project for the uninsurable through the Florida Health Insurance Plan in which the Plan would bid coverage to health insurers at a fixed premium to limit state liability. The state would subsidize a part of the premium and the contracted insurer would be at risk for losses in excess of premium revenue.
13. Study the alternatives to provide individual insurance to all Floridians who are not covered by a group plan, Medicare, Medicaid or other comprehensive creditable coverage [as defined by the Health Insurance Portability and Accountability Act of 1996 (HIPAA)].
15. Establish a comprehensive multilingual, culturally diverse educational program to educate Floridians on the importance of having health insurance, health insurance coverage options, appropriate use of emergency rooms and other tools to cover health care expenses. The program would include state agencies such as Agency for Health Care Administration, Department of Health, Department of Financial Services and Office of Insurance Regulation as well as insurers and other private organizations such as Florida Hospital Association and the Florida Medical Association.
16. Amend the statute [Section 627.6699(11), F.S.] to formally change the name of the group to the Florida Health Insurance Advisory Board.

Mr. McCarty noted that he would add a note to the Funding/Studies section of the recommendations (#9, 10, 11 and 13) that recognized the limitations on public funding and to look to other sources for resources. Mr. McCarty asked for a motion to adopt the consent agenda. Ms. Kammer moved to adopt the consent agenda. Mr. Clatsoff seconded the motion. The motion was adopted.
The remaining recommendations were discussed and approved as follows:

Mr. Herrle moved to adopt agenda item recommendation #3. Ms. Foy seconded the motion. The motion was adopted.

4. Allow retention of health insurance coverage under a parent's policy for children up to age 25 who are Florida residents or students but who are no longer dependents. (To avoid unintended tax consequences for group policies, a continuation of coverage option may be necessary).

As expenses are paid, funds are transferred into the checking account based on the allocation contained in the approved operating budget.
