This effort is necessary to provide much needed information to state insurance regulators, as well as information for local, state, and federal officials responsible for making policy decisions for the relief and rebuilding effort over the next several months and years.

All property and casualty insurers transacting direct business in the Collective States, including surplus lines carriers, are required to submit to the Disaster Reporting System, certain information for claims resulting from Hurricane Katrina and the financial impact of Hurricane Katrina on a state-by-state basis for each of the Collective States. The information will be collected in three phases:

- **PHASE I:** Claims, Financial Projections and General Information (Biweekly basis)
- **PHASE II:** Line-of-Business Reporting (Monthly basis)
- **PHASE III:** General Claims Adjudication Data (Monthly basis)

Information regarding Hurricane Katrina should be submitted to the secured Disaster Reporting System at the following website: [https://www.insurance-disaster-reporting.org](https://www.insurance-disaster-reporting.org). Additionally, the Collective States’ Departments of Insurance have outlined below the initial Reporting Guidelines and Reporting Criteria for each phase.

**REPORTING GUIDELINES:**

The information for Hurricane Katrina can be submitted on a company or group basis, however, the basis must be consistently applied throughout future reporting periods. Please have the NAIC company code/group code available for the company/group, as well as the NAIC Internet Filing ID when accessing the system.

If a company has no exposure in each of the Collective States, under the Phase I report type, select: "The Company has no exposure in [State]." Continue through the end of the Reporting Guidelines process. Once this task has been performed, the company will not need to report again for Hurricane Katrina for any phase, unless the company gains direct exposure in one of the Collective States.

Continue through the end of the Reporting Guidelines process. Once this task has been performed, the company will not need to report again for Hurricane Katrina, until the company receives one (1) or more claims during the required reporting timeframe in one of the Collective States.
