Florida Family Insurance Company 27599 Riverview Center Boulevard, Suite 100 Bonita Springs, Florida 34134

hereinafter referred to as the "Company." Such report of examination is herewith respectfully submitted.

SCOPE OF EXAMINATION

This examination covered the period of January 1, 2011 through December 31, 2015 and commenced with planning at the Office on September 13, 2016 to September 15, 2016. The fieldwork commenced on October 4, 2016, and concluded as of March 31, 2017. The Company was last examined by representatives of the Florida Office of Insurance Regulation (Office) covering the period of January 1, 2006 through December 31, 2010.

The examination was a single state examination conducted in accordance with the NAIC Financial Condition Examiners Handbook (Handbook). The Handbook requires that the examination be planned and performed to evaluate the financial condition, assess corporate governance, identify current and prospective risks of the Company, and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. This may include assessing significant estimates made by management and evaluating management's compliance with Statements of Statutory Accounting Principles (SSAP).

This examination report includes significant findings of fact, as mentioned in Section 624.319, Florida Statutes, and general information about the insurer and its financial condition. There may be other items identified during the examination that, due to their nature (for example, subjective conclusions or proprietary information), are not included within the examination report but are separately communicated to other regulators and/or the Company.

In this regard, in Note 10 of the December 31, 2015 annual statement, FFIC disclosed that it netted receivables from affiliates Florida Family Insurance Services, LLC. and Halogen Software, LLC. against a payable to affiliate Lakeview Insurance Company, and reported the net receivable from affiliates on its balance sheet.

Prior Examination Findings

There were no findings or exceptions noted during the examination as of December 31, 2010.

COMMENTS ON FINANCIAL STATEMENTS

Assets

Receivable from parent, subsidiaries and affiliates

SSAP #64 states that assets and liabilities shall be offset and reported net only when a valid right of setoff exists. A right of setoff is a reporting entity's legal right, by contract or otherwise, to discharge all or a portion of the debt owed to another party by applying an amount that the other party owes to the reporting entity against the debt. A valid right of setoff exists only when all the following conditions are met:

- a. Each of the two (2) parties owes the other determinable amounts. An amount shall be considered determinable for purposes of this provision when it is reliably estimable by both parties to the agreement;
- b. The reporting entity has the right to offset the amount owed with the amount owed by the other party;
- c. The reporting party intends to offset, and
- d. The right to offset is enforceable by law.

SSAP #64 further states that amounts due to or from affiliates shall be offset and reported net only when the aforementioned provisions are met. However, our review disclosed that the Company was not following the requirements of SSAP #64. In this regard, in Note 10 of the Company's December 31, 2015 Annual Statement, the Company disclosed that it netted receivables from affiliates Florida Family Insurance Services, LLC. (\$9,509) and Halogen Software, LLC. (\$454,619) against a payable to affiliate Lakeview Insurance Company (\$137,556), and reported the net receivable from affiliates (\$326,572) on its balance sheets. This had no impact on the reported surplus of the Company, and the amount of the reclassification was not material; therefore, we did not adjust the financial statements.

Liabilities

Losses and Loss Adjustment Expenses

The Company's appointed actuary, an employee, rendered an opinion that the amounts carried in the balance sheet as of December 31, 2015, made a reasonable provision for all unpaid loss and loss expense obligations of the Company under the terms of its policies and agreements.

The Office's consulting actuary, Greg Wilson, FCAS, MAAA, of Lewis and Ellis, reviewed the loss and loss adjustment expense work papers provided by the Company and he was in concurrence with this opinion. However, the Office consulting actuary noted that the National Association of Insurance Commissioners (NAIC) Property & Casualty Annual Statement Instructions require that the Statement of Actuarial Opinion include specific comment paragraphs to address the risks and uncertainties that could result in material adverse deviation. If such risk exists, the opining actuary should include an explanatory paragraph to describe the major factors, combination of factors, or particular conditions underlying the risks and uncertainties that the actuary reasonably believes could result in material adverse deviation. However, we noted that a discussion of the risks considered was not included in the 2015 Actuarial Opinion.

Capital and Surplus

The amount of capital and surplus reported by the Company of \$56,241,903 exceeded the minimum of \$5,000,000 required by Section 624.408, Florida Statutes.

SUMMARY OF RECOMMENDATIONS

Statement of Actuarial Opinion Disclosure

We recommend that the Company Actuary include comment paragraphs to address the risks and uncertainties that could result in material adverse deviation in future Statements of Actuarial Opinion.

Compliance with Statutory Accounting Principles

We recommend that the Company report assets and liabilities in accordance with the requirements of SSAP #64.
