These rate filings are publicly available within the [I-File Forms & Rates Filing Search System](#). However, documents marked by the insurance companies as trade secret will not be available for review. On the Advanced Search tab in I-File, there is a checkbox for PPACA-compliant filings about half way down the list (check both boxes). This can be used along with the date fields to get the filings in question. It will return major medical and dental filings.

Additionally, on August 1, 2018, the Centers for Medicaid & Medicare Services (CMS) will post information for consumers to review health insurance rate filings by state that meet the 10% or higher threshold at: [Healthcare.gov Search](#)

As a reminder, the Office must complete its review of filings with Qualified Health Plans (QHP) in the risk pool by August 22, 2018 (see Office [notice](#)). This information will become available on the “Federal Health Care Insurance Reform” [webpage](#) once the Office has determined the timeframe for issuing a public announcement on each company’s rate changes.
